

# The Eagle and The Crow

The only bird that dares to peck an eagle is the crow. It sits on its back and bites the eagle's neck. However, the eagle does not respond nor fight with the crow, it spends no time on the crow instead the eagle opens its wing and soars higher to the heavens. The higher the flight the tougher it is for the crow to breathe then the crow falls down from the lack of energy.

It simply means that once a person moves towards his/her goals, He/she is faced with obstacles and challenges but when they keep pushing yourself forward every other unnecessary thing will fall off by itself.

So, keep soaring higher and overcome every obstacle with ease and not be distracted from your purpose.
